ISSUES

ORGANIZED STALKING

Stalking and harassment perpetrated upon an individual by a networked group of people. Every facet of the targeted individual's life is affected by the harassers including workplace environment, business contacts, finances, friendships, family relationships, even acquaintances and strangers. Nearly all social contacts are re-positioned against the targeted individual until he/she is made to feel totally isolated and alone. Job losses lead many to financial ruin. The goal is to totally destroy the victim's life.

REMOTE ELECTRONIC ASSAULTS

Sometimes lethal assaults utilizing directed radio frequencies to produce a variety of harmful effects on the human mind and body, such as pain induction, heart attacks, cancers, strokes, headaches, nausea, disorientation, synthetic telepathy and more.

OBJECTIVES

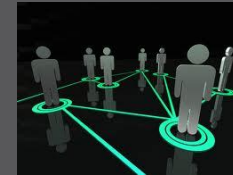

The focus of our work is in three main areas:

- **Support** - for our targeted community.
- **Advocacy** – to elected officials for legislation to help victims.
- **Outreach** – to educate the media and general public about covert targeting.

Freedom From Covert Harassment and Surveillance is a 501 (c) 3 non-profit organization.
